PRESIDENT'S UPDATE

Mumblings from on high...

269 emails in the Club gmail spam filter and of those about 15 were genuine. Add to those about 20 that got through the filters and into the email account, so somewhere around 275(ish) spam emails in a period of 4 weeks since I last had a chance to check the general email account. I'm surprised it wasn't more to be honest but at the same time the email filters on the website have caught and deleted more. If you've contacted the club recently and you haven't had a reply, this may be the reason as (a) the spam filters have been in over drive and (b) I've been away and haven't had the opportunity to look at the accounts. The good news is we may have a new Web Master but more on that once I know that we haven't scared him off!

Yes, I've been absent for a period, taking a two week trip to Japan and then, like most of us, needing to go back to work for a period of rest and relaxation. Holiday's are exhausting! For a country with apparently a wealth of historical cars, I saw but 1 'classic' car on the road, a classic mini in Tokyo. I'm told; however, that there was a magnificent turn out of cars at this years All British Day which I sadly missed. Head to the Sprite Club of SA website for a fabulous review of this and MSCA Round 1 at Mallala!

The year has certainly gotten off to a healthy start with a number of club or sister club events bring out members and their cars. We have a number of runs coming up in the coming months so I'd encourage you to get out and about with us. I'd really love to meet the longer term members whom we rarely see so hopefully there is something in the wings that might pique your interest to pull your Sprite or Midget out of the garage and stretch its legs.

In the next few months we have a couple of great Mid-Week runs through the Adelaide Hills and Ranges and a few enticing weekend runs, including a run to Gilberts Motor Museum and a fabulous day with the Stephenson's at Apogee Motorsport with the Stephenson's, a day not to be missed! Also, keep in your diary that the next club meeting will be at Classic and Sportscar Boutique in Norwood for what promises to be a great evening!

That's enough from me, see you out on the road!

Bulletin 2 is now available on line and in this Burble. Members are encouraged to be part of what will be a fantastic week or Spritely activities on the banks of the River Murray!

Membership and Conditional Registration

Some of you may have received an email from Gordon that your car has been reported to Services SA as you are not a financial member. This isn't something we do lightly but it is something that we are required to report to Services SA/DTI with three months into the new membership year. Its the rules that we have to follow to be authorised to run the Conditional Registration program.

We know that some people move their cars on. We know that for some life and work simply gets in the way. If you have received the letter or email and you are in the process of renewing your membership please contact Gordon or Don as soon as possible so we can get your log book stamped and you back on the road.

If your email change please get in touch with me or the webmaster as soon as possible to get your address updated in the system!

Nationals Fund Raising - SOLID GPS

Solid GPS have kindly donated three of their 'mega battery' units to the Club to raffle. Valued at \$247 each, the Club will soon be selling raffle tickets at \$10 each. There will be a maximum of 400 tickets up for grabs. The raffle will be drawn as part of the Rocker Cover Racing evening in August, unless the tickets are sold out prior!

We need to sell at least 250 tickets to support the Nationals but selling all 400 would be just amazing!

TICKETS GO ON SALE FROM MONDAY NIGHT. YOU DON'T HAVE TO BE A CLUB MEMBER TO BUY A TICKET.

Contact the club if you'd like to buy one or more of the 400 tickets!!

Tech Tip

We have all heard of the advances of AI and how its becoming smarter and smarter. This month I challenged it to give me tuning tips for a Weber DCOE45 and I'm surprised by what it came up with!

For a Weber 45 DCOE carburetor on a 1275 A-series engine, a good starting point for jetting is a main jet of around 145, an air corrector jet around 190, and a venturi size of 36mm.

Here's a more detailed breakdown:

- *Main Jet: Start with a main jet around 145.*
- *Air Corrector Jet: The air corrector jet should be around 50 higher than the main jet, so aim for around 190.*
- *Venturi Size: A venturi size of 36mm is a good starting point.*
- *Idle Speed: A reasonable idle speed for a modified engine on Webers is between 900 and 1100 RPM.*
- *Air Jets: Air jets, also known as air corrector jets, control how much air is allowed into the emulsion tubes, affecting high-speed mixture.*
- *Air Jet Sizing: Weber air jet sizing refers to the flow rate in hundredths of a millimeter (0.01mm).*

Note: These are starting points, and you may need to adjust the jet sizes based on your specific engine configuration and driving conditions. It's recommended to use a rolling road or other methods to fine-tune your carburetor.

SOLID GPS TRACKERS

Keen readers may remember a member talking about GPS trackers and the peace of mind a new Australian product gave him. You may also recall a short article in last years Sprouting Forth about Solid GPS.

Since then a few of us have followed suit and purchased a Solid GPS unit to help protect our prides and joy. In return, Solid GPS have come on board to help the Sprite Club of SA deliver the 2026 Nationals and have kindly donated three GPS units that the club will be raffling off across 2025 to raise funds for the Challenge - stay tuned for details early in the new year as to how you can get involved and maybe win one of the units.

How Solid GPS Works

1. Charge It.

Once you receive your tracker, charge it overnight and turn it on.

Then, download the Solid GPS app on the App Store or Google Play Store, or log in to our website.

2. Hide It.

After charging and turning your tracker on, hide it nearly anywhere inside your vehicle. Such as:

- Caravans: inside a cupboard or drawer
- Cars: Inside the boot, glovebox, dashboard, etc.
- Motorcycles: Anywhere inside your bike
- Trailers: Securely hidden underneath
- Boats: Inside or near the dashboard

3. Track It.

When your vehicle moves, your tracker will detect that movement and update your vehicle's location at its quickest, every 2 minutes (Or up to every 10 minutes).

Then, track your vehicle 24/7 through your phone or computer.

NATIONAL 26 CHALLENGE BULLETIN #1

2026 Sprite & Midget National Challenge

Murray Bridge, South Australia

April 27th – 1st May 2026

Bulletin 1 - February 2025

Welcome to Bulletin 1 for the 2026 Sprite and Midget National Challenge!

As it has been 25 years since the last SA based National Challenge, there has been a lot of discussion and planning for this event by the Organising Committee, so we would like to keep you updated on the latest information.

As you can see by the title block the National Challenge will be held in Murray Bridge during Late April- Early May in 2026 and will provide the attendees the opportunity to enjoy the surrounds and attractions of this Riverland town.

While there are more details to follow here is an overview of the events planned for the Challenge:

- Display Day/Show n Shine
- Social Drives and Observation Run
- Motorkhana
- Super Sprints
- Welcome and Themed Dinners
- Final Dinner/Presentation Night

The Accommodation will be at the Bridgeport Motel in Murray Bridge, where there are a number of room options for guests, plus secure underground parking for vehicles:

- Twin share - single travellers who wish to 'bunk in' with another single traveller.
- Single - for those travellers who would like a room to themselves
- Couples - they get the full room for themselves.
- These options will be priced accordingly - more information to follow

For those with a "need for speed" the competition part of the event will be held at The Bend Motorsport Park at Tailem Bend, located approx. 30 minutes drive from Murray Bridge.

Here we will combine with another Car Club for two days of events:

- Motorkhana on the Skid Pan
- Super Sprints on the West Circuit

And not forgetting the Social side of the event with many local attractions to visit and view during the event. These include:

- Display Day on the banks of the River Murray
- Observation Run - approx. 100 - 120km
- Social drives to wineries, car museums, and other points of interest in the area
- Themed Dinners
- Presentation Dinner

With a number of expressions of interest registered so far the 2026 National Challenge is starting to gain momentum, so these bulletins will keep you updated with the latest developments.

Pricing for the accommodation, meals, social and competition events will be available soon.

Here are a few other points to note:

- Secure trailer parking will be available for those towing Sprites and Midgets or Race cars
- Themed merchandise will be available to commemorate the event

Finish is a reflection of effort.

That is our philosophy. Whether repairing accident damage, restoring vintage vehicles from any condition to concours-winning standard, or designing and building entire custom car bodies from scratch, we put in whatever efforts required to achieve the desired results. We work on all cars from all over the world.

We appreciate vehicles of all sizes, makes and models. We work on Australian, European, American and Japanese vehicles. For any enquiries, please give us a call or pop in and see us in person.

Marque Restoration has had the privilege of restoring many shining examples of motoring history. Many Concours de Elegance and Concours de Originales winners have passed through our skilled hands. Our aim is to exceed our customers' expectations of quality workmanship and attention to detail while delivering a fair price.

Coachwork

Marque Restorations are one-off Coachwork specialists. We can take your vision, whether inspired by the past or a totally unique concept, from driving board to driving car. Using the best of both traditional and modern techniques, our master craftsmen can bring your idea to life.

Mechanical Repairs

Mechanical repairs and part fabrication to classic cars, pre '70's vehicles a speciality. We can rebuild or repair to "as new", engines, gearboxes, differentials, suspension and exhausts etc. We also offer general servicing, maintenance and tuning services to keep your prized machine in tip top shape.

Resprays

First impressions count, if your paint finish isn't up to scratch, it won't matter how good the bodywork is. Getting the paint right is as equally important as the body repair process itself. We take pride in our craft, and using only premium quality products, with end results worthy of a concours winner.

Panel Repair

Marque Restoration also provides general panel repair services, from fixing minor dents and scratches to custom fabrication to replace damaged bodywork, whether collision damage or corrosion. It doesn't matter if your vehicle is steel, aluminium, composite or a combination thereof, we can repair it.
